

TECHNOVA SOLUTIONS

Master Terms and Conditions of Service

Effective Date: July 18, 2026

These Master Terms and Conditions of Service (the "Agreement") constitute a legally binding contract between TechNova Solutions (collectively, "TechNova," "the Company," "we," "us," or "our") and the individual or legal entity accessing or operating our cloud computing systems, data optimization pipelines, API integrations, and agentic orchestration platforms (collectively, the "Services").

PLEASE READ THIS AGREEMENT CAREFULLY. BY CREATING AN ACCOUNT, EXECUTING AN ORDER FORM, IMPLEMENTING THE COMPANY'S SOFTWARE DEVELOPMENT KITS (SDKs), OR OTHERWISE UTILIZING THE SERVICES, YOU ACKNOWLEDGE THAT YOU HAVE READ, UNDERSTOOD, AND AGREE TO BE BOUND BY ALL CLAUSES, STIPULATIONS, AND AMENDMENTS CONTAINED HEREIN.

1. ACCEPTANCE OF TERMS

By registering for, authenticating into, or interacting with our automated systems, the Customer (hereafter "User," "Customer," or "You") establishes complete and unequivocal legal acceptance of this Agreement. If you are entering into this contract on behalf of a corporation, partnership, or other legal entity, you explicitly warrant and represent that you possess the requisite statutory authority to bind such entity to these covenants. If you do not agree to all structural conditions outlined within this document, you must immediately cease all network connections, request account decommissioning, and terminate usage of all TechNova software infrastructure.

2. USER INFRASTRUCTURE & RESPONSIBILITIES

- Account Integrity:** You are strictly liable for provisioning, configuring, and securing all administrative, user, and API keys associated with your account deployment nodes. Any instructions or system execution parameters received by TechNova under your authentication tokens shall be conclusively presumed to originate from you.
- Acceptable Network Conduct:** The Services must be utilized exclusively for lawful operational purposes. Users are explicitly prohibited from deploying code, training machine learning models, or executing web requests designed to circumvent network firewalls, scraping proprietary infrastructure without authorization, distributing malware, or executing cryptographic denial-of-service vectors.
- Data Inputs:** The Customer retains total legal accountability for the accuracy, compliance, intellectual property rights, and integrity of all text arrays, database files, and system parameters uploaded to the TechNova runtime environments.

3. FINANCIAL COVENANTS, PAYMENTS & SUBSCRIPTIONS

- Billing Architecture:** TechNova services are rendered based on the specific service plan (Starter, Professional, Business, or Enterprise) selected by the customer. Subscription fees are assessed recurrently on either a monthly or annual commuted basis, determined at the time of purchase.

2. **Compute & Quota Adjustments:** Usage parameters—including cloud storage capacity limits and AI compute inference thresholds—are explicitly bounded by the tier specifications. Any resource utilization crossing the explicit threshold of the respective plan will trigger automated overage assessments billed at current programmatic spot rates, or system throttling, as defined by system load capabilities.
3. **Non-Refundability:** All payment obligations are non-cancelable and all fees paid are fully non-refundable, save for explicit mandates dictated under applicable statutory consumers protection acts. Delinquent accounts remaining unresolved for more than seven (7) business days will experience automatic platform lockout.

4. PROPRIETARY INTELLECTUAL PROPERTY RIGHTS

1. **Company Ownership:** TechNova retains exclusive title, copyright, patent protections, trade secrets, and complete ownership over all underlying algorithms, orchestration framework structures, API routers, database layouts, user interfaces, documentation, and source code configurations utilized to deploy the Services. No ownership transfer is implied or executed under this Agreement.
2. **Customer License:** TechNova grants the User a limited, revocable, non-transferable, non-exclusive, global license to invoke our API endpoints and interface platforms solely to consume the Services under the parameters of their active plan.
3. **User Content License:** The Customer grants TechNova a temporary, secure, localized license to process, store, compile, and translate customer data arrays exclusively to execute the operations requested by the User (such as compiling data via pipelines or performing low-latency ML queries). TechNova explicitly covenants that user training files and pipeline data are not retained for core foundational model updates without express written authorization.

5. OPERATIONAL CONTINUOUS AVAILABILITY & SERVICE LEVELS (SLA)

TechNova applies commercial best efforts to maintain a baseline operational availability standard of 99.9% for production nodes (Business and Enterprise tiers). However, the Company does not guarantee uninterrupted operational connectivity. The Services are subject to emergency maintenance intervals, downstream hyper-scaler outages, core hardware node replacements, and widespread telecommunication network distributions. Scheduled system updates will be communicated via administrative status portals at minimum twenty-four (24) hours prior to execution windows.

6. DECOMMISSIONING & ACCOUNT TERMINATION

1. **Termination for Convenience:** The Customer may terminate their service relationship at any period by thoroughly executing the account deletion protocol within their administrative security portal. Such actions cancel future subscription billing renewals.
2. **Termination for Cause:** TechNova reserves the absolute statutory right to block, freeze, suspend, or permanently purge any operational account node immediately, without prior notice, upon determining a material breach of Acceptable Network Conduct, persistent transaction payment failure, or activities generating structural legal risks to the Company or its partner networks.

3. **Data Offboarding:** Upon account closure, all associated vector stores, custom pipelines, and cached transaction profiles are permanently queued for low-level server scrubbing within thirty (30) days, in strict accordance with standard cryptographic data sanitation policies.

7. COMPREHENSIVE LIMITATION OF LIABILITY

TO THE MAXIMUM EXTENT PERMITTED UNDER APPLICABLE LAW, IN NO EVENT SHALL TECHNOVA SOLUTIONS, ITS DIRECTORS, SHAREHOLDERS, SYSTEM ARCHITECTS, OR SUBSIDIARY PARTNERS BE LIABLE FOR ANY INDIRECT, INCIDENTAL, SPECIAL, PUNITIVE, COVER, OR CONSEQUENTIAL DAMAGES (INCLUDING, WITHOUT LIMITATION, LOSS OF CORPORATE REVENUES, COMPUTE INTERRUPTION, CORRUPTION OF ML DATA LAYERS, OR LOSS OF BUSINESS REPUTATION) RENDERED UNDER TORT, CONTRACT, OR NEGLIGENT THEORIES, EVEN IF FORESEEABLE.

THE TOTAL AGGREGATE LIABILITY OF TECHNOVA SOLUTIONS ARISING FROM OR RELATING TO THE SERVICES SHALL BE STRICTLY BOUNDED AND SHALL NOT EXCEED THE EXACT MONETARY AMOUNT ACTUALLY PAID BY THE CUSTOMER TO THE COMPANY FOR THE SPECIFIC SERVICE TIER PROVISION IN THE THREE (3) MONTH PERIOD IMMEDIATELY PRECEDING THE LITIGATION ACTION EVENT.

8. DATA PRIVACY, ENCRYPTION & SOVEREIGNTY

The collection, processing, and management of personal telemetry data and corporate logs are governed strictly by the TechNova Global Privacy Policy. We maintain strict compliance with multi-regional security frameworks, including standard encryption standards, data isolation measures across tenant profiles, and structured role access levels. We do not transmit customer processing inputs to unauthorized external brokers or independent entities.

9. JURISDICTION & GOVERNING LAW

This Agreement, its structural covenants, and any subsequent procedural litigation arising out of or related to the deployment of the Services shall be governed exclusively by, and construed strictly in accordance with, the internal laws of the State of Delaware, United States, without regard to conflict of laws principles. The parties explicitly agree that any legal suits or actions shall be filed exclusively in the state or federal courts located within Delaware, and both parties waive all objections to such personal jurisdiction forums.

10. STATUTORY CONTACT INFORMATION

For all regulatory inquiries, contractual notices, compliance audit reviews, or formal structural communication regarding these Master Terms, please contact our Legal Compliance Department via the channels specified below:
